

samfdeepcnv::samfdeepcnv_run

samfshalcnv::samfshalcnv_run

progsigma::progsigma_calc

```
graph LR; A[samfdeepcnv::samfdeepcnv_run] --> C[progsigma::progsigma_calc]; B[samfshalcnv::samfshalcnv_run] --> C;
```

The diagram illustrates a dependency structure where two functions, `samfdeepcnv::samfdeepcnv_run` and `samfshalcnv::samfshalcnv_run`, both depend on the function `progsigma::progsigma_calc`. The dependency boxes are arranged horizontally, with the two source boxes on the left and the target box on the right. Blue arrows point from each source box to the target box. The target box is shaded gray, while the source boxes are white with black borders.
