

mp\_thompson::mp\_thompson\_run

```
graph LR; A[mp_thompson::mp_thompson_run] --> B[module_mp_thompson::mp_gt_driver];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'mp\_thompson::mp\_thompson\_run'. The right box is gray with a black border and contains the text 'module\_mp\_thompson::mp\_gt\_driver' on two lines.

module\_mp\_thompson  
::mp\_gt\_driver
